

It is a great pleasure to announce that the UK has been selected by the Board of the International Mesothelioma Interest Group (iMig, President Prof. Dean Fennell) as the host for their international Conference in 2016. The UK Local Organizing Committee (chaired by Mr. David Waller) has chosen the International Convention Centre in Birmingham as the venue for the iMig 2016 Conference.

Building on the success of preceding meetings in Boston in 2012 and Cape Town in 2014 the Conference will feature a highly interactive, stimulating and multidisciplinary program including workshops, plenary sessions as well as oral abstract and poster sessions. The meeting will address the entire patient pathway and look beyond the scientific topics alone.

The Conference will provide the ideal forum to stimulate ideas and establish collaborations as well as to initiate intense discussions. Extended networking opportunities will foster communications between delegates.

This is an exciting time in Mesothelioma in the UK and we look forward to sharing ideas as to how to make this the most successful iMig Conference ever been held. We hope to see you in Birmingham in 2016.
